Report...

- 2017 proved to be another exciting year. As we detailed in our annual report last year, our pre funding application request was submitted to the Big Lottery for the Reaching Communities Building grant in December 2016.
- In February 2017 we were awarded a £50,000 Reaching Communities building development grant from the Big Lottery. This grant was awarded to develop the community centre building design to RIBA stage 4 including obtaining planning permission.
- The design was submitted in December 2017 to Charnwood Borough Council's planning department.

Report...

- The group has continued to develop relationships with local MPs, Councillors, residents groups, and the wider community. There continues to be a strong desire for the construction of, and ultimately for the use of the community centre within the local community and thus the group continues to forge ahead with the building design.

Report...

- As of the date of this report, we have achieved a number of huge successes during the past ten months. In February 2018 the planning application for the community centre was granted planning permission by Charnwood Borough Council. In addition we were awarded a £10,000 Awards for All grant from the Big Lottery.
- In March 2018 our application for £500,000 from the Big Lottery Reaching Communities building fund was awarded. Since then we have been working through a tender process to identify a construction company to work with, then refining elements of the building design through value engineering process.

Report...

- In addition we have continued to raise additional funds required through our sponsor a brick appeal, and from different foundations and trust to build the community centre.
- We have also been building relationships with other groups within the community and organisations with the view of running a number of projects from the building once the construction phase has been completed.

For the Trustees
